

# iMuffs™

The first Bluetooth headset for your iPod AND your phone!

## Wireless Freedom

Throw your iPod in your backpack and listen to your music wirelessly! No more cords to untangle or snag. Enjoy near CD quality sound up to 30' (10m) away thanks to the Advanced Audio Distribution Profile (A2DP) and Bluetooth 2.0.

## Never Miss a Call

When your Bluetooth phone rings, the iMuffs automatically pause your iPod and ring in the headphones, and let you talk through the integrated microphone.

## Versatile

Listen to music from your laptop or desktop<sup>1</sup>, iPaq, or MP3 smartphone<sup>2</sup>. Talk on the phone or over iChat or Skype. Even chat while playing video games.

## Ergonomic Controls

Intuitive controls let you pause, change volume, and skip tracks right from the headset.

<sup>1</sup> Windows XP only and requires a Bluetooth adaptor with A2DP support.

<sup>2</sup> Must support stereo over Bluetooth using A2DP.

## Package Includes:

iMuffs Stereo Bluetooth Headphones  
iMuffs Adaptor for iPod<sup>3</sup>  
AC to USB Power Adaptor/Charger  
USB Cable
